Continuation Sheet (PTO-303) 09/606,159

Application No.

Continuation of 2. NOTE: The additional limitation "which will be formed later" requires further consideration. Further, this limitation requires an additional section 112, 2nd paragraph rejection, because "which will be formed later" is indefinite as to when the forming of the gate electrodes will be deferred in the process sequence. This amendment is not in compliance with MPEP 714 because a marked up version of the claims has not been provided.
